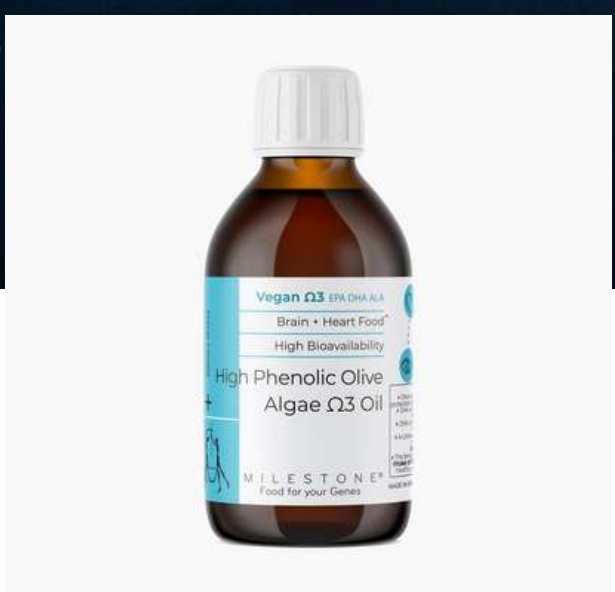
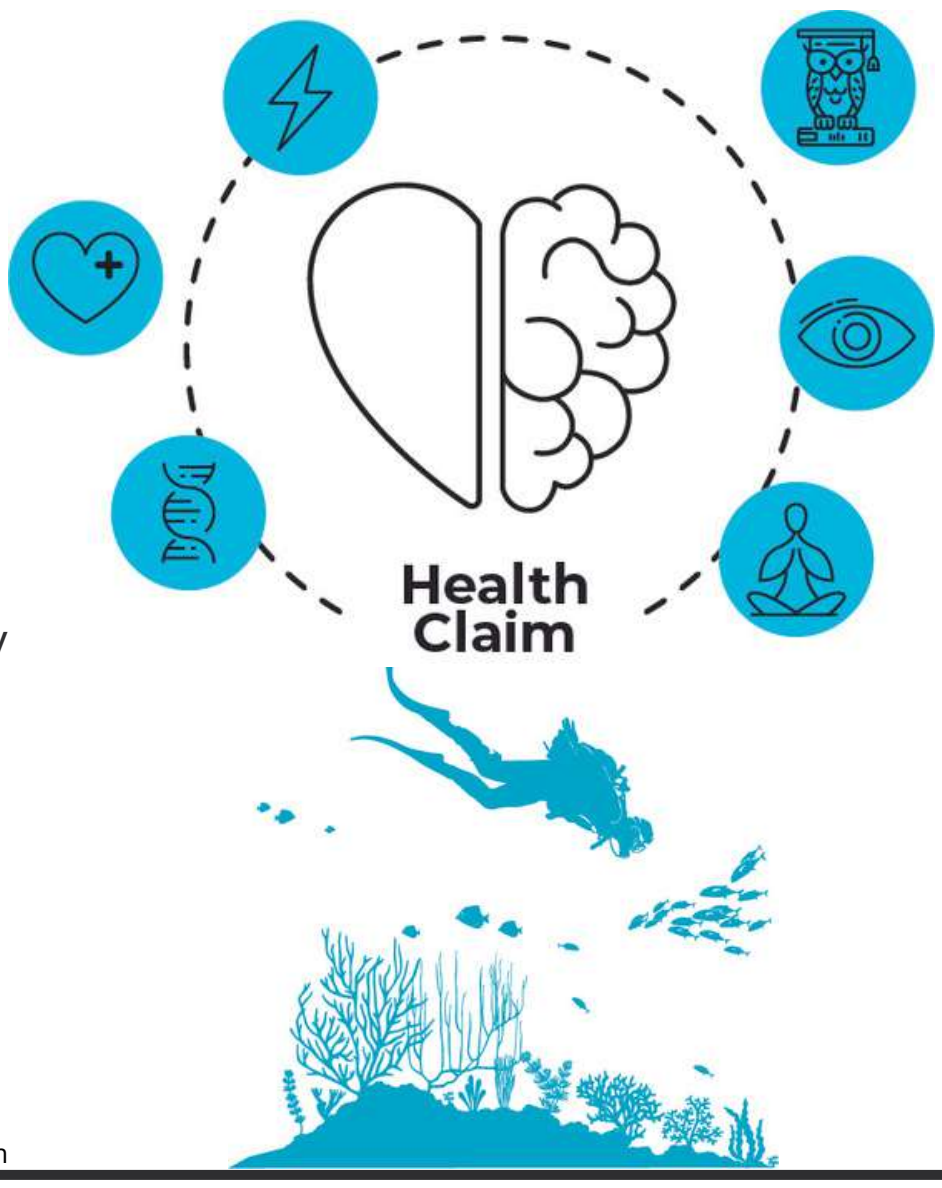
Functional Foods for Special Health Uses

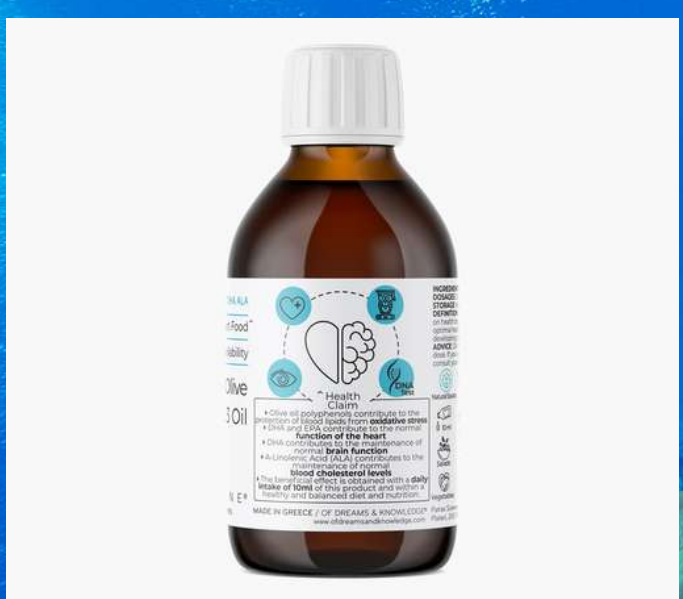


HIGH PHENOLIC EVOO + ALGAE Ω3 OIL

- **Food for Medical Purposes** - Brain + Heart Food
- **Why MILESTONE®** - Vitamins, minerals and anti-oxidants should be received in their natural form.
- **Why Plant-Based** - 1/3 of the world's fisheries are overfished. We truly care about the planet and we are commited to sustaining its biodiversity. No impact on marine resources and biodiversity.
- **Highly Concentrated** - One bottle contains the EPA and DHA equivalent of over 100 anchovy fish + 50 times more anti-oxidants than ordinary olive oil.
- **High Quality** - Algae cultivation is performed in an environmentally responsible fermentation, no exposure to pesticides or other chemicals. Olive tree cultivation is free of pesticides, promotes biodiversity and aims to increase the phenolic compounds in the final medical olive oil.
- **Five Unique Characteristics** - Rich in **Omega 3** (**EPA+DHA+ALA**), **Omega 6** and **Omega 9** (oleic acid) fatty acids, natural **hydroxytyrosol** and **tyrosol** bioactive compounds, **no additives or preservatives**.



"I am striving to be the change I wish to see in the world"



10ml = 200 olives + Ω3

Plant Origin

HIGH PHENOLIC EVOO + ALGAE Ω3 OIL

10ml

Juices/ Smoothies

Vegetables

85%

More potent than fish oil

Based upon average 270 mg/g EPA+DHA concentration for standard fish oil.

Olea Europaea

+

Algae

+ 300mg Natural Ω3

The only plant-based Ω3 food providing EPA + DHA

50 x Natural Antioxidants

Ω9 Oleic Acid + Ω6 Linoleic Acid + Ω3 (ALA)

Clinically-supported benefits to human health for all ages

Brain Function

Improve your cognitive performance. Boost your brain.

Heart Function

DHA and EPA contribute to the normal function of the heart.
