Functional Foods for Special Health Uses

HIGH PHENOLIC EVOO + ALGAE D3 OIL

- **Food for Medical Purposes** - Immune + Bones
- **Why MILESTONE®** - Vitamins, minerals and antioxidants should be received in their natural form.
- **Why Plant-Based** - It's a matter of nonviolence and respect for life.
- **Highly Concentrated** - High phenolic olive oil fortified with the most sustainable form of D3, algae.
- **High Quality** - Algae cultivation is performed in an environmentally responsible fermentation. No exposure to potential contaminants. Olive tree cultivation is free of pesticides, promotes biodiversity and aims to increase the phenolic compounds in the final medical olive oil.
- **Five Unique Characteristics** - Rich in **Plant-Based D3, Omega 6** and **Omega 9** (oleic acid) fatty acids, **natural hydroxytyrosol** and **tyrosol** bioactive compounds, **no additives or preservatives**.

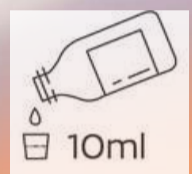

"My food is grown, not born"

10ml = 200 olives + D3
